

LIP SOFA

designed by Lava Luo

It is the warm and soft lips that inspired us to create the Lip Sofa. It's a cleverness for this sofa's design, by showing the structure of the lips, the upper lip is changed into the sofa back, the lower lip into the base, and the tongue, is converted into the cushion.

The peak and the valley of lip are transformed into the backrest waist curve and the concave turns correspondingly. It looks perfectly round, lovely and pleasing. Lip Sofa could be arranged in the hotel lobby, leisure area, café, library, home and other scenes.
